AHMED SALAMA
FRONT-END WEB DEVELOPER

Phone: 01003192331 │ Email: a7medsamirr4@gmail.com │ LinkedIn: linkedin.com/in/ahmeedsalama

SUMMARY

Motivated and detail-oriented Front-End Web Developer with a Bachelor of Commerce in Accounting. Skilled in building responsive and interactive web applications using HTML, CSS, JavaScript, and React. Passionate about UI/UX, clean code, and delivering engaging user experiences. Quick learner, eager to contribute to dynamic teams and continuously develop technical skills.

TECHNICAL SKILLS

- HTML5, CSS3, JavaScript (ES6+), React.js
- Bootstrap & Tailwind CSS
- API Integration
- Git & GitHub
- Responsive Web Design
- UI/UX Design Principles
- Photoshop

PROJECTS

Weather App
A web app that displays real-time weather updates for any city using API integration. Shows temperature, humidity, wind speed, and dynamic weather icons in a clean, user-friendly interface.
https://ahmeedsalama.github.io/WeatherApp

Portfolio Website
https://ahmeedsalama.github.io/JohnDoePort/

PRODCT MANGEMNT SYSTEM
Developed a responsive CRUD application using HTML, CSS, and JavaScript, with data persistence via local storage. Features include product search, total price calculation, and batch deletion—all managed client-side for a seamless user experience.

Landing Page
https://glittery-florentine-72fa78.netlify.app/

Dashboard
Interactive React dashboard for managing users and products with authentication and protected routes.
https://flourishing-syrniki-221e65.netlify.app/

To-Do List Web App
An interactive web app built during my Code Alpha internship. Allows users to add, edit, complete, and delete tasks. Uses local storage for saving tasks and features a responsive, user-friendly design.
https://ahmeedsalama.github.io/CodeAlpha_Project

Notes App
A responsive web application designed to help users create, organize, and manage personal notes efficiently. The app features a modern and clean user interface for adding notes with a title, description, and due date.
https://moonlit-sprinkles-7a503f.netlify.app/

Product Dashboard Web App
Built a responsive React dashboard for product management (CRUD) using a RESTful API. Features include product search, add, edit, details view, and batch or single deletion with confirmation dialogs (SweetAlert2). Designed an intuitive UI with Bootstrap, and implemented dynamic total calculation and real-time updates for seamless user experience.
